

USHERS

1. Ushers will report for duty at the time designated by the house manager.
2. Each person will check out a "Usher" tag from the house manager.
3. Ushers show patrons to their seats using the section and row number from their tickets and make sure that each person gets a program.
4. After all patrons are seated and the house managers gives the go-ahead to begin the show, ushers may seat themselves if they have purchased tickets or may leave the premises.
5. Patrons arriving late will be seated at a time appropriate to the lighting and run of the play. If late arrivals come in, they may be asked to remain behind the curtains if entrances are to be made from the back.
6. **All patrons will be treated with the utmost respect and restraint...no matter how late or crotchety they may seem.**
